MR. HOLT,

Please to give the following Anſwers to the Queries of Virginus Queries, inſerted in your Paper [illegible] 1772, a Place in your next Paper, and will oblige a Constant Reader.

ANSWER to QUERY FIRST.

NO. *But an Order hath been made by the King in Privy Council, that Grants of Lands are to be made by the Governor of [illegible] Colony, to the Officers and Soldiers of the Regiment, in the Military Reſerve.*

Answer to the 2d Query. This is anſwered by the Anſwer to the firſt Query.

Anſwer to Query 3d. *Do all the Perſons that are to be intereſted in Lands to be granted in the Colony of New-York, appear perſonally before the Governor and Council? The Military Adventurers and their Aſſociates may authorize their Agents to apply to Governor Cheſter for them, with proper Credentials, upon producing which the Grants will be made out for them reſpectively.*

Anſwer to Query 4th. *This is in Part anſwered by the Anſwer to the 3d Query, the Faith of the King declared in Privy Council, is a ſufficient ground of Aſſurance to the Military Adventurers, to induce them to appoint a Committee to explore the Country; and to know the particular Inſtructions that Governor Cheſter hath, relative to the Granting the Lands in Queſtion; which I doubt not will be as encouraging and efficacious for the ſpeedy Settlement of thoſe Lands, and obtained with as little Attendance, as Lands are obtained in the Colony of New-York.*

Anſwer to Query 5th. *Each Family or two Perſons, are to ſettle on a Thouſand Acres, in ten Years after the Date of the reſpective Patents in default thereof the Grants are to be null and void; the Lands ſubject to a Quit Rent of One Farthing per Acre, to commence five Years after the Date of the Patent, and one other Farthing at ten Years from that Date, which Quit Rents are to be appropriated to the Support of Government among the Military Adventurers. Governor Cheſter aſſured General Lyman in England, that he would grant the Lands for Sixteen Shillings Sterling a Thouſand Acres.*

Anſwer to Query 6th. *The King and Privy Council would not order Lands to be granted to the Military Adventurers and their Aſſociates, that are within the Limits of Carolina. And as to old Charters extending to the South Seas, its ſo ridiculous that none who pretend any Knowledge of the Nature of Grants in this Country, but the Suſquahana Free Booters, would Countenance ſuch a Conſtruction. The Title under the Great Seal of Weſt Florida, will be as indiſputable for the Lands in Queſtion, as the Title of the Great Seal of the Colony of New York, will be for the Lands reputed to have been in the Colony of New Hampſhire, which have been granted lately under this Great Seal, which has yielded no ſmall Harveſt to many.*

Anſwer to Query 7th. *Mr. Stuart the Superintendant for Indian Affairs for the Southern Diſtrict, hath ſome Time ago purchaſed thoſe Lands of the Indians for the Crown.*

Anſwer to Query 8th. *This is anſwered by the Anſwer to the ſeventh Query.*

Anſwer to Query 9th. *Who protected the firſt Settlers of New-England, baniſhed and neglected by the Mother Country, againſt Indians more barbarous than the Southern Indians? In Caſe of a War with Spain the Crown of England will be able, by the Aſſiſtance of its own Subjects in that Country, and Mal-Contents of the Inhabitants of New-Orleans, diſſatisfied with the Spaniſh Government, to make an eaſy Conqueſt of that Iſland, which will be an Acquiſition ſo important, conſidering its Situation, that it will not be neglected. Its Time enough to determine where Forts are to be built, when the Country is explored and Planters in the Country to be defended. The Spaniards are not between Penſacola and the Yaſou Country, otherwiſe than their being in New-Orleans.*

Anſwer to Query 10th. *Have not the Colonies of New-York and New-Jerſey, ſmall and [illegible] villages without Charters. The Military Adventurers and their Aſſociates are Freemen, and therefore they cannot be deprived of their [illegible] Rights, but by their own Conſent.*

Anſwer to Query 11th. *General Lyman [illegible] aſſures from Great Men, that [illegible] a Juſtice to the [illegible] and their Aſſ[illegible] a Colony, they [illegible] ment; the [illegible] from [illegible] ment of Ge[illegible]*

[illegible] Colonies will marry the unskilled and unemployed Professors of the Land-Jobbers of New-York, and [illegible] Agriculs among them. He knows that the New-England People despise Difficulties in Quest of fertile Lands; to be freed from exorbitant Land-Builders, and especially those of New-York.

Answer to Query 12th. The Sea-Vessels are not [illegible] obliged to warp up to reach New-Orleans; [illegible] when there is no Winds, or when it is very faint. Imports will be brought down with great Facility, [illegible]fts or Boats; and the Imports will not be so [illegible] nor heavy, but that they may be easily carried [illegible] in Boats, and much easier than Goods can be carried up Connecticut River, as far as Cohauſe, in the Colony of New-York.

Answer to Query 13th. *What have induced considerate Farmers to move on the Frontiers of all our Northern Colonies, exposed to the Ravages of cruel Savages, in Colonies where there are long Winters? The New-England Colonies are very thick inhabited, too thick to be advantageous or comfortable in a State of Husbandry; and the People of Influence in the Colony of New-York, to which there have been a great Addition of new Lands since the Peace—have defeated the Design of the Crown, by taking up large Tracts in the Names of Persons that are not interested; and when the Poor New-England Farmer wants to move into that Colony, he is deprived of the gracious Intention of the Crown, and must pay those deceiving Monopolizers an Advance Price for them; so that its more eligible for such Farmers to transport themselves to a more temperate Climate, where they can obtain Lands at the Fountain Head, and at the cheapest Rate. To conclude, if Agricola's Queries proceeded from a Principle of Benevolence to the Military Adventurers and their Associates; let this satisfy him, that they run no Risque of being disappointed in Grants for the Lands in Question. If the Order of the King in Council, in favour of General Lyman and the Military Adventurers, is a mere Chimera! There cannot be the least Doubt but the Governor of West Florida will grant the Lands in his Province to any that apply for them, and give every Encouragement in his Power to those that will emigrate from hence to settle the Lands, because in doing it he will advance his own Interest, the Interest of the Crown and the Nation; and as it can't yet be the Interest of avaricious Land-Jobbers, like those of New-York, to take up large Tracts of Land in that Province, to be subject to pay a Quit Rent, when there will be no Prospect to sell them, till the Country is pretty well inhabited, therefore the Military Adventurers run no Risque of being disappointed in the End of appointing a Committee to explore the Country, which is all they mean at present to do. But if Agricola's Queries proceeded from a Design to prevent Emigrations from the New-England Colonies, which Time will discover, in order to inhance the Price of his Lands in the Colony of New-York, let him rest assured, that the Military Adventurers will pursue such Means as will not only disappoint him of Settlers, for some Time, from Connecticut, but will remove some of those already in the Colony of New-York.*

[☞ As all the Printers on the Continent were requested to publish the Queries, all who have done so, are requested to publish also the foregoing Answers to them.]

MR. PRINTER,

I feel myself moved to write unto thee, and peradventure my Thoughts may be profitable to many.

HONEST Men and lawful Occupations are praiseworthy; but they who pursue ways which do evil, ought to be punished, and Men should be admonished of them, and how to eschew them.

Now, although the Lord saith—honour the Physician; that Saying appertaineth only to good and skilful Men; not to those who, for filthy Lucre, pretend to Knowledge which they have not, and thereby deceive and injure those who listen to their cunning Speech. But, because there are moreover many honest Doctors whom the Lord hath not blessed with Capacity, nor dealt out to them a due Portion of Knowledge; People who are visited with Sickness know not how to distinguish the honest and skilful Man from an unskilful or wicked One. And the Evil is the same, whether a Man be kept sick from the Want of Skill, or for the Profit of the Doctor.

Yet, if a Man will use his Understanding, and mind the Doings and not the talk of a Doctor, he will not fall a Martyr to Ignorance, or unfair Dealing. Many sick Men who were under a Doctor's Hands for Weeks or Months, have got well at last, by taking some simple Remedy, which makes it manifest that the Doctor lacked Knowledge, or lacked Honesty: And inasmuch as this [illegible] giveth Cause to think many Men have lost their Lives by using Physic so long till their Constitution was broken past all Relief.

We have been obliged to defer Old Troy, to make Room for this Supplement.

NEW-YORK, January 7.

In the Boston paper of the 31st ult. is contain'd (it is said) the substance or extract of a letter from the Secretary of State (Earl of Dartmouth) to the Governor of Rhode-Island, relative to the burning of the Gaspee Schooner, which in the opinion of the Crown Lawyers is adjudged to be *High Treason, in levying War against the King*, his Majesty by the advice of his Privy Council, had issued his Royal Commission, appointing persons to inquire into and make report of all the circumstances of the said attack, &c. That his Majesty trusts that all persons in the colony will pay due respect to his Royal Commission, and that the business of it will be carried on without molestation. At the same time the nature of the offence, and the great number who appear to have been concerned, making every precaution necessary, his Majesty has signified his pleasure to General Gage, to hold himself in readiness to send troops into Rhode Island if called upon by the Commissioners, in aid of this service, on which the care and vigilance of the civil Magistrates of the colony is likewise required in arresting and bringing to justice, all such persons as shall upon proper information appear to have been concerned in plundering and destroying the Gaspee,—That all such persons *shall be sent, for trial to England*, together with all the witnesses for or against them, in order to which, they are to be delivered to Admiral Montagu. [Want of room prevents the insertion of this extraordinary letter at large.]

To the PRINTER. *New-York, Dec. 24, 1772.*

ON Tuesday last, at about half after six in the evening, having just come out of a dark entry, to the street door, which fronts about north westerly, I suddenly found it as light as day, and as I was in a kind of astonishment at the appearance, which I believe lasted about two or three seconds, I found the light began to diminish; but before it was quite gone, I happened to look up, when about 25 degrees to the westward of the point over my head, I saw a globe of light, full as large, and exactly resembling the body of the moon, or sun when its rays are obscured, swiftly passing behind some thiner clouds, thro' which its body might be seen, into a thick cloud which hid it from my sight. At first it enlightened the cloud, but the light soon vanished: Its motion, which I judged to be about north westerly, was very swift, like that of common meteors, but it resembled none I ever before saw in its appearance, which was like a solid compact body perfectly round and smooth at its surface; nor did it leave any stream of light, that I saw, behind it. The light was seen by many people who did not see the meteor that caused it, but one gentleman to whom I mentioned it, saw it just as it passed behind the cloud, and took it for the moon, not then recollecting that it being but two days before the change, the moon was then set, and would not rise before 6 o'clock in the morning.

Since the above came to hand, we have had several other accounts of the above meteor, the most particular of which was from two gentlemen who were then on the road a little on this side of New-Brunswick, about 30 miles westerly from hence, where the meteor appeared much as above described, and was considerably to the westward of them; there appeared to them three distinct flashes of light, but whether proceeding from explosions of the meteor, or its passing between the intervals of clouds, they could not tell. About 15 minutes after the appearance of the meteor, they heard several very large reports in the air, as if a number of cannon had been fired in a very quick succession.

[Our Readers will observe by the Dates and Contents of the two following Letters, that the first inserted, was last received, and probably was not intended, for Publication: Nor did it appear to the Printer, that the first written, was so intended, till he received the last, which therefore he inserts as introductory to the first.]

To the PRINTER,

SIR, *Jan. 6, 1773.*

I AM satisfied with your answer to my letter: and shall now settle some preliminaries about our future correspondence.

When letters are sent for publication, it is to be presumed the writer has some connected plan, and is the best judge when his or her productions should appear, because they only can know what is to follow: particularly in temporary pieces, humourous or serious, which, if delayed, miss of their effects, and destroy the intended connection. For these reasons, I expect you will be so complaisant as to publish what I shall send you from time to time, in the first paper that comes out after it, and you may rely on having it in time, provided you execute that scheme of conveyance. The very [illegible] themselves, will certainly have no objection to your facrificing a few fatty paragraphs about people and things we don't know, to give room to what concerns, or may divert ourselves.

Now the [illegible] I am [illegible] to give [illegible] Confession of the authentick [illegible] reception of what [illegible] in this paper, in

[*The Printer highly esteems the Favours of his fair Correspondent, and has no Doubt of her Qualifications to give him, and the Public, the most agreeable Entertainment; or that there will always be such Propriety in her Commands, as to secure him from the disagreeable Necessity, of refusing to oblige her. She may depend her Pieces shall never be defer'd, unless in Cases of absolute Necessity.*]

SIR, December 28, 1772.

I Have been ten thousand times in a humour to write to you, and as often deterred from it, by the difficulty of conveying my lucubrations to your hand. You know the genius of Women is, that how liberal soever they be of their favours to your sex, they choose to keep the correspondence private:—And there are so many obstacles in passing a letter to you with privacy, that with all the contrivances I am mistress of; and it's allowed Women are seldom defective at finding expedients; I cannot fall upon any one mode of doing it; but what, as matters now stand, would be attended with great risque of a discovery. Though I have an high opinion of men of your profession—it will be time enough to admit you to the knowledge of me, when I am convinced you make suitable returns to my advances. As for servants, and go-betweens of all sorts, both prudence and delicacy forbid me to employ them. I suppose many others of our sex, and perhaps of yours too, would be your correspondents, if it was not for the same difficulty. ——Set your wits then to work, and if you can devise a clever way to obviate the impediments to a free communication, you may depend on hearing often from me.

Methinks I hear you say, what pert Baggage is this, that, thus, *sans ceremonie*, addresses herself to me—What can she mean by it?——Oh, I suppose 'tis some idle Girl that scribbles Love-Letters, Rebusses, Billet Doux's, &c. and wants to fill my paper with them. What! Shall I be at the trouble to find a mode of conveying such nonsense to me?——No, no, not I: A Woman's pen is like a Woman's tongue—they both must be restrained.—I will do all I can to save my paper from the effusion of the one, and my ears from the din of the other.

Stop Sir, pray don't be in such an hurry—— hear me before you slight me; and think on a Woman's anger.

It's very true, I am, as my Mamma tells me, a very idle Girl, that neglects the house; minds only books; writing nonsence, and talking of things which Women should not meddle with.—— I read every thing that falls in my way.——I write also on different subjects: ——Love Letters, and Love-Songs you may be sure: But, besides them, I have tried my hand on very serious and solemn ones, more than once; I writ a sermon that might pass, it was said, tolerably well on a country congregation:—And, then I have made speeches, and essays on political subjects, that I am sure would cut no bad figure among the elegant Orations of the eloquent Speakers in our Assembly. Moreover, I have a tolerable collection of receipts in Cookery and Physic; and some curious ones to make a Parson, a Physician, and that queer compound thing called a Politician.

I am able you see, to furnish you with a variety of fare, if you can but contrive to have it conveyed safely to you. A thought just comes into my head of a method which may serve your correspondents, Ladies and Gentlemen. Suppose you were to have a box with a lock and key to it, and a slit on the lid to admit letters; put up in the Coffee house for the convenience of Gentlemen resorting there, and another fixed to the door of your own house. If you like this method, set about it directly; but, at all events, I expect a positive answer in your next to this overture, from

SALLY TICKLE.

LONDON,

Nov. 2. The exorbitant demand made by the King of Prussia upon our court, for damages sustained during the last war, it is said will not be complied with, though an invasion of our German territories is threatned by that Alexander of the North, and though the Emperor has intimated that he is ready to support him in his claim.

Nov. 10. Yesterday forenoon, at half past eleven o'clock, the new Lord Mayor, the old Lord Mayor, Aldermen Stephenson, Crosby, Sawbridge, Bull, Plomer, the two Sheriffs, the Common Serjeant, the two City Council, and other City Officers, went from Guildhall, the Mercers and Merchant Taylors companies marching before them, with music playing, and colours flying, to Queenhithe where they took water to go up to Westminster: on their way thither, they were attended by the several city companies in their respective barges, adorned with pendants and streamers. After having walked round the hall and saluted the Courts, &c. they went to the Exchequer bar, where the Lord Mayor took the oaths, &c. and having recorded warrants of attorney in the proper Courts, returned by water to Black-friars, and from thence, in their coaches, to Guildhall, where a magnificent [illegible] was provided.

[illegible] which have appeared in the papers, [illegible] that John Wilkes, Esq. has sold his

district and horse, must be fabricated by some ministerial hireling, to prejudice that steady patriot; for we are assured, for a truth, that he has only pawned them.

NEWPORT, December 21.

We hear a house in this town is preparing for the reception of Admiral Montagu and his lady; so that it is not probable the ships, which are drawn near the town, have any hostile intentions.

NEW-LONDON, December 25.

"Last Saturday sailed from hence the sloop Mississipi, Capt. Goodrich, bound for Pensacola, and Mississipi, (via New York) having on board a Committee appointed by the company of military adventurers, to reconnoitre the lands lately granted by the Crown to Major General Lyman, and the company of military adventurers, bounded west on the river Mississipi, and north on the river Yazou, between lat. 32 and 34."

PHILADELPHIA, January 4.

Capt. Webly, in a sloop was arrived from New-York, at Madeira.

By a Gentleman arrived in Capt. Cunningham from Antigua, we are informed, that a vessel arrived there two days before he sailed, from St. Vincents, and gives the following account: That on the 20th of November, in landing the troops, one Lieutenant and seventeen men belonging to the 70th regiment were drowned; and they were afraid they would be obliged to run one of the transports ashore to supply the troops with provisions, being very scarce, and the surf running so high, the boats could not venture off: That a corporal and four men were left as a guard over some of the Charibs, taken prisoners; but they not keeping so good a look out as they ought to have done, the Charibs murdered every one of them, and joined their party again. The 6th regiment of foot was arrived at St. Vincents, from England.

On the 11th of December, sailed from Antigua, for St. Vincents, four companies of the 68th regiment, under the command of Capt. Stewart; they were relieved by the second battalion of the 60th regiment, from New-York.

On Friday last arrived here from London, via New-York, Mr. William Young, Botanist to their Britannick Majesties; with his wife, who is, we hear, a most amiable woman.

HUNTINGTON, November 28.

This Day, a Man died in this Town, of a Rupture, of many Years standing, which he had too much neglected, contenting himself with only now and then putting it up. It was what Surgeons call a *complete Enterocele*: The Intestines descending in a large Volume quite to the Bottom of the *Scrotum*. On Thursday the 26th about 9 o'Clock, A. M. while at Work, he found himself in great Pain, succeeded by violent Reachings, Hiccoughs, &c. the usual Symptoms of a *Strangulation*. After many fruitless Endeavours to relieve himself, he sent for a Surgeon, who, about 4 o'Clock, P. M. found the Part enormously large and tense, and for one Quarter of an Hour attempted to reduce the Rupture, but without Success, as might reasonably be expected. To facilitate the reduction, therefore all the common milder Methods were, though in vain put in Practice, and even the Operation for the *Bubonocele* proposed, but rejected.—Yesterday, the Part affected became *edematous*; in the Evening *emphysematous*, with a small quick Pulse; cold Sweats, and a large black mortified Spot, as big as a Dollar, on the Bottom of the Scrotum;—and this Morning he died. This Information (tho' a Month later than was intended) is given, not so much for a Piece of medical News to Gentlemen of the Faculty, as for a Warning to Patients who unfortunately have Ruptures or *Burfits*, as they are vulgarly called——The Caution intended consists of several Articles.

1st. Let every Person who has a Rupture, as soon as possible after its first Appearance, apply to, (not a *Rupture-Quack*, for such there are, as well as *Cancer-Quacks*, but to) some honest Surgeon, who may be reasonably supposed to understand the Structure of the Parts, and consequently the Nature of the Disorder, to put him in a Way for a radical or thorough Cure, which, if early attempted, may be sometimes obtained in Adults as well as Children; or if not, 2d. Let the Patient by all Means constantly wear a *Truss*) which a good Surgeon, even in *this* Country, will be able to help him to, and) which will, by artificially keeping up the Rupture, prevent the sad Consequences above related. 3d. If a ruptured Patient feels Pain in the Part, or in his Bowels, vomits, hiccoughs, or is costive, let him, without roughly handling himself, send as soon as possible for some *Skilful honest* Surgeon, if such a One is to be had. 4th. If, after using all gentler Means, his Surgeon judges the Operation necessary, let him without scruple submit to it. In such a Case an uncertain Remedy is better than none at all; for, though indeed the Operation frequently fails for Want of being seasonably performed; those few who are acquainted with these Matters know, that it has been the happy Means of saving the Lives of many. And yet, alas! such is the State of Surgery in this Country, especially in Country Towns, that scarce any Surgeon whatever can undertake an Operation of this, or indeed of any other Kind, above the *Knowledge of a Child*, without being exposed, scarcely to the Censure of ignorant People, but to the fatal Reflection, [illegible] *Misfortune*, [illegible] Operation they [illegible] Fault with [illegible] Methods; the Propriety of which has been proved by the Experience of Ages.

NEW-YORK, January 7, 1773.

Capt. Coupar, [illegible] with the following Vessels, viz About 16 Days since, with Capt. Place, in a Sloop from Philadelphia for Barbadoes; the 20th of December, Lat. 17, 42, with the Brig Unanimity, Capt. Smith, from London for Georgia; the 22d, with the Lady Spencer Packet, from Falmouth for South-Carolina; and the next Day, with the Snow Jonathan, from Jamaica for Liverpool.

With Capt. Coupar came Passengers, Mrs. Bloomfield, and Daughter, and Mr. Samuel Emlyn, and Thomas Thornbury, of Philadelphia. Extract of a Letter from a Gentleman of Character in London, per the last Packet.

—"I hear your Militia are put on a good Footing, and that you are marching and counter-marching: It is well; but I am most desirous you should fortify; as sure as you live if you do not, the Town will be burnt about your Ears in the next War, and in a couple of Years, or sooner, such an Event is like to take Place."

Several Letters from London by the Packet say, That the Ministry are determined to use their Influence in Parliament for a Repeal of the Act imposing a Duty on all Teas exported to the Colonies from Great-Britain.

On Friday January 1, 1773, it being the first Day of the new Year, a Royal Salute was fired under the Ramparts of Fort George, in the City of New York, with two Brass Field Six Pounders, by the first Royal Artillery Independent Company of Militia of the City of New-York, commanded by Capt. Samuel Tuder, and as all the Officers and Men in their several Stations performed their Duty with great Expertness and Regularity, they met with the general Approbation of all the Spectators, as more Steadiness could not be expected from any Regular Body.

The Inhabitants are desired to be careful of their Doors, Windows, &c. as there are a set of House-breakers now in Town.—Some of them broke off one of the Shutters, and a Pane of Isaac Heron's Shop Window, on Sunday the 27th ult. so early as 9 o'Clock in the Night. The Noise alarmed the Family, and the Villains made off.

Isaac Heron presents his Compliments to those Gentry, and congratulates them on their getting so *clean* off, on a Night so very *dirty* and *wet*. If they choose to return, during the *cold Season*, he will take care to provide them a *warm* Reception. And will endeavour to prevail upon them to leave behind e're they go, some Proof of their Identity; such as an amputated Limb, or, even a Snuff box full of Brains. The latter may be of Use to our very vigilant City Watch,—though, it is thought they sleep pretty sound with the few they have got.

Capt. Cummins, in 35 Days from Madeira, informs us, that he sailed from thence in Company with Capt. Kendal, of this Port, bound for the Coast of Africa; and that the Ship Peggy, Capt. York, for Philadelphia, and the Dilligence Sloop of War, for the Jamaica Station, were to sail in a few Days after him.

Capt. Woodhouse, in the Snow Sally, from the Bay of Honduras for this Port, was cast away about the middle of October, in a violent Gale of Wind, on the West End of the Island of Rattan, the Vessel intirely lost, but the Crew saved.

The General Assembly of this Province met here on Tuesday last.

The Mail to go by the Mercury, Capt. Dillon, will be closed this Evening.

THE partnership of Leigh and Price was dissolved last June, when Mr. Price ran away with the creditors' property. Witness my hand.

[illegible] I have made [illegible] and troublesome [illegible] which I have had [illegible] without obtaining any other than a momentary relief. And having been lately informed that Doctor Solomon Bailey of this city, did understand and [illegible] said disease radically, I immediately applied to him, and underwent an operation for that purpose, by which I have obtained a perfect cure; and am now as well as ever I was in my life. I thought it proper to make this publickly known, not only with a view of doing justice to the Doctor's abilities, but likewise from a principle of humanity, that those persons who are unhappily afflicted with the same disease, may know who to apply to, in order to obtain relief.

POET'S CORNER.

The following Hymn was the Hymn sung, on Sunday the last for our Lord's Prayer.

GOD of my life, thy watchful care,
With blessings crowns the opening year:
This guilty life shall show praising,
And every breath my anthem sing.

2. How many precious souls are fled,
To the dark regions of the dead;
Where now, this day the rolling sun?
There, his last yearly period run.

3. We yet survive; but who can say,
What shall, this year, or month or day,
E'er I shall render this vital breath,
Then fix at last, in fadeless rest with death?

4. That length is thine, eternal God,
'Tis thine, to fix my soul's abode;
It holds its life from thee alone,
On earth, or in the world unknown.

5. To thee our spirits we resign;
Make them, and own them still as thine;
So shall thy smile secure from fear,
Tho' death should blast the rising year.

6. Thy children, eager to be gone,
Bid time's impetuous tide roll on,
And land them on that blooming shore,
Where years and death are known no more.

MAREDANT's Antiscorbutic Drops.

A fresh parcel are just landed, at 14s. a bottle, they have performed a great number of remarkable cures, of which certificates may be seen at James Rivington's (where the medicine may be had).

The following is amongst them.

To Mr. NORTON, *Surgeon in Golden-square,*

SIR, *Pill, near Bristol, March* 18, 1772.

I Think I should be undeserving the benefit I have received, and greatly deficient in point of gratitude to you, did I not lay before the public my late deplorable situation, and the benefit I have received by your Maredant's Drops. My case was this. About a year and a half since, I got a cold, (by riding to Bath in a rainy day) succeeded by a malignant fever, which, with difficulty, I survived: Some months after this, I perceived an erruption on my arms and legs, and afterwards on the face, to such a violent degree, that it was one entire scab, and smelt intolerably; my eyes, nose, and mouth, were almost closed up, which obliged me, for some time, to live on spoon meat only: I had also three inveterate ulcers on my left leg, and was reduced to a mere skeleton. I had the advice of the most eminent of the faculty, at Bristol, to no purpose. In this deplorable situation was I, when I heard of the almost incredible cures performed by your drops: By taking them, the ulcers in my leg are healed, the erruption has disappeared, and I enjoy a better state of health than I have for these several years past. I desire you will make this public, for the benefit of my fellow sufferers.

I am, with Gratitude,
Your much obliged humble Servant,
ROBERT SHIELDS.

ISAAC HERON, *Watch-Maker,*

At the corner by the COPPER-HOUSE, has an arched Dial; has for sale,

A Few very fashionable warranted watches, in gold, silver, gilt and green cases, which he will sell as low as they are retailed in London.——Also, Ladies elegant fleet watch-chains; mens do. seals, trinkets, glasses, springs, strings, and keys by the dozen; enamelled dials; elegant do. for *the Craft, Antient, and Modern.*—Elegant broach-jewels for their *honest breasts*; sword-knots, sundries, &c. with

Sprigs, which more beauteous makes the fair;
And lockets, various, for the hair.

The watches he repairs, he does as well and charges as low for, as his neighbours, i. e. as near the London prices as possible. To say more, would neither be prudent nor honest. As usual, he warrants their performance——not for ever, but one year, and if they be not very bad, for ten; after the first, at 4s. per ann. for each, cleaning; accidents and mismanagement of them excepted; but,

Should the all-sustaining hand, him drop,
His movements all springs, wheels, hands must stop!
Then, like the tale of "a bear and fiddle,"
This bargain——"breaks off in the middle."

He is extremely grateful to his friends, and the indulgent public, for their smiles and favours, and really means to merit a continuance of them.

☞ It is high time the following watches were returned him, viz. H. Clay, London, 3630—Thomas Hills, London, 11148, and a large old one John Hanwell, London, missing—all in silver cases. The brethren of the *Pivot* are requested to stop them, or either, if offered for repair or sale.

NEW LANDS to be SOLD,

Upon very moderate and easy terms in the great Patent of *Queensborough*, or *Kayaderosseres*, in the County of *Albany*.

THIS patent was lately divided under the partition act, by Col. Glen, of Schenectady, Mr. Christopher Yates of Albany, and Mr Thomas Palmer, of New Windsor, in Ulster county Commissioners, and Mr Charles Webb, of Stamford, in Connecticut, the Surveyor; by whom all purchasers may be informed of the nature and quality of this extensive Tract, which is capable of containing many townships, and advantagiously situated to the North and West of Albany, between Hudson's and the Mohawk's river. Mr. *Palmer's* general account of the patent is as follows:

This tract has many pleasant and advantageous ponds and streams of water, abounding with trout and other fish; Kayaderosseres Kill is the most considerable creek in the patent, and that called Saraghtoge Lake the largest of the lakes. The soil is in general very good, from opposite to Fort Edward down to Saraghtoge along Hudson's river, and from thence on a North Westerly direction to the North West bounds of the patent, so as to include the southerly part of Kayaderosseres Creek and its branches, and so southerly and south easterly to the patented lands on the Mohawk River, is excellent land,—the soil deep and fertile,—the timber large and thrifty, and chiefly beech, maple, birch, basswood butternut and white pine.—This part of the tract is well situated,—the communication easy and the distance short, and its front no where more than four miles from the Mohawk river; the land generally flat and free from stones. As to the more northern part of the patent near the head of Kayaderosseres Kill, it is mountainous, but the mountains are accessible and not so rocky as is common to other high lands. Half of the remaining part of the patent, which lies in a triangular form, is as good as the first parcel above described, and the other half tho' light and sandy, will produce good Indian corn and rye. There is a great quantity of *low land* on Kayaderosseres creek, as rich as the Flats of Lisgen or Schenectady.

The particular parcels to be sold by the subscribers, are these:

Lot No. XIII. in the IIIrd	Alotment of	203
Lot No. XIII. in the IVth	—	500
Lot No. IV. in the XIIIth	—	9880
	In all ——	1693 Acres.

These three tracts lie to the west of Schenectady, and adjoin each other, beginning at the distance of [illegible] miles and extending to 7 miles from the north [illegible] Mohawk's River, valley are watered by a stream called Eva's Kill[illegible]

Lot No. II. in the VIth Alotment 2130 acres.

This lot adjoins the east side of a [illegible] village on the northward of Schenectady, and [illegible] together, called *Ball's town*, which is situate on the [illegible] ment of Albany and was settled by Connecticut farmers, in Connection with the Rev. Mr. Ball, late minister of Stamford, in West Chester county. A [illegible] runs through this lot in this county runs between this and part of Lot No. [illegible] to the Mohawk River, and thence to [illegible]

Lot No. XI. in the VIIIth Alotment [illegible] acres, [illegible] within half a mile of the Mohawk River, and to the [illegible] village.

From the Newport Mercury, December 21.

MR. SOUTHWICK, *Pleaſe to inſert the following.*

TO be, or not to be that's the queſtion. Whether our unalienable rights and privileges are any longer worth contending for, is now to be determined.—Permit, me, my countrymen, to beſeech you to attend to your alarming ſituation.

The ſtamp act you oppoſed with a ſpirit and reſolution becoming thoſe who were truly ſolicitous to tranſmit to poſterity thoſe bleſſings which our forefathers purchaſed for us in the wilds of America, at an immenſe expence of blood and treaſure.——But behold an evil infinitely worſe, in its conſequences, than all the revenue laws which have been paſſed from the reign of Charles the firſt, to this time, now threatens this diſtreſſed, *piratically plundered* country.

A court of inquiſition, more horrid than that of Spain and Portugal, is eſtabliſhed within this colony, to inquire into the circumſtances of deſtroying the Gaſpee ſchooner, and the perſons who are the commiſſioners of this new fangled court are veſted with moſt exorbitant and unconſtitutional power.—They are directed to ſummon witneſſes, apprehend perſons not only impeached, but even *ſuſpected*! And them, and every of them to deliver to Admiral Montagu, who is ordered to have a ſhip in readineſs to carry them to England, where they are to be tried.—Three of the commiſſioners are a quorum, who are directed to apply to General Gage for troops to protect them, in their offices, and preſerve the colony from riots and diſturbances.—The Royal commiſſion for theſe gentlemen, together with their inſtructions is tranſmitted to Admiral Montagu, who, upon being notified that they are convened in conformity to their appointment, is to attend them, and then deliver their commiſſion and inſtructions, and to be aiding with his Sage Council and advice, when ever neceſſary.——So much has tranſpired reſpecting this alarming Star-Chamber inquiſition.——And who among the natives of America can hear it, without emotion! Is there an American, in whoſe breaſt there glows the ſmalleſt part of public virtue, but who muſt be fired with indignation and reſentment, againſt a meaſure ſo replete with our free conſtitution.——To be tried by ones Peers, is the greateſt privilege a ſubject can wiſh for; and ſo excellent is our conſtitution, that no ſubject ſhall be tried, but by his Peers—This eſtabliſhment is the grand barrier of our lives, liberties and eſtates; and whoever attempts to alter or invade this fundamental principle, by which the liberties of the people have been ſecured time immortal, is a declared enemy to the welfare and happineſs of the King and State.——The tools of deſpotiſm, and arbitrary power, have long wiſhed that this important bulwark might be deſtroyed, and now have the impudence to triumph in our faces, becauſe ſuch of their fellow ſubjects in America, as are ſuſpected of being guilty of a crime, are ordered to be tranſported to Great Britain for trial, in open violation of Magna Charta:—Thus are we robbed of our birth rights, and treated with every mark of indignity, inſult and contempt,; and can we poſſibly be ſo ſupine, as not to feel ourſelves firmly diſpoſed to treat the advocates for ſuch horrid meaſures with a deteſtation and ſcorn proportionate to their perfidy and baſeneſs?—Luxury and avarice, a more fatal and cruel ſcourge than war, will ere long ravage Britain and ultimately bring on the diſſolution of that once happy kingdom.—Ambition, and a thirſt for arbitrary ſway, have already baniſhed integrity, probity and every other virtue, from thoſe who are intruſted with the government of our Mother Country:—Her colonies loudly complain of the violences and vexations they ſuffer by having their monies taken from them, without their conſent, by meaſures more unjuſtifiable than highaway robbery; and applied to the baſeſt purpoſes, thoſe of ſupporting *tyrants* and *debauchees*.—No private houſe is inacceſſible to the avarice of cuſtom-houſe officers:—No place ſo remote, whither the injuſtice and extortion of theſe miſcreant tools in power have not penetrated.—

Upon the whole, it is more than probable, it is almoſt an abſolute certainty, that, according to preſent appearances, the ſtate of an American ſubject, inſtead of enjoying the privileges of an Engliſhman, will ſoon be infinitely worſe than that of a ſubject of France, Spain, Portugal, or any other the moſt deſpotic power on earth: So that, my country, if it behooves you, it is your indiſpenſable duty to ſtand forth in the glorious cauſe of freedom, the deareſt of all earthly enjoyments; and, with a truly Roman ſpirit of liberty, either prevent the faſtening of your internal chains now forging for you and your poſterity,—or nobly periſh in the attempt!—To live a life of *rational* beings is to live *free*; to live a life of ſlaves is to die by inches. Ten thouſand deaths, by the *halter* or the *ax*, are infinitely preferable to a miſerable life of ſlavery, in chains, under a pack of worſe than Egyptian tyrants, whoſe avarice nothing leſs than your whole ſubſtance and income will ſatisfy; and who, if they can't extort it, will glory in making a ſacrifice of you and your poſterity, to gratify their maſter the d—l, who is a tyrant, and the father of tyrants and of *liars*.

A SCRIPTURAL COMMENT

Upon the Thirty-nine Articles of the Church of England.

By M. MADAN, A. B.

CHAPLAIN to the Right Honourable Henry Lord Apsley, Lord High Chancellor of Great-Britain, and to the Lock Hospital, near Hyde Park corner.

1 Pet. 2, 1. There were false prophets also among the people, even as there shall be false teachers among you, who privily shall bring in damnable heresies.

The author in his preface observes, 'When good Bishop 'Latimer (who with Bishop Ridley was burnt by the papists 'for maintaining the doctrines in the following articles) was 'going to the stake, he said to his fellow sufferer, *Be of good 'comfort Mr. Ridley, and play the man,—we shall this day light 'such a fire in England by God's grace, as I trust shall never be 'put out.* The sort of fire which consumed their bodies, 'was extinguished with the extinction of Popery, but the 'fire which this good Bishop meant, now burns and shines in 'the established doctrines of the Church of England.'
